Re: U.S. Application for:
"Anti-Rollover Stability Control"
Your Docket: 199-0438
(Our File No. FGT 1099 PA)

Dear Greg:

Thank you for Maria Leos' letter of June 3, 1999 and the new patent disclosure. We have reviewed the disclosure and believe that we can prepare the application on this invention at a flat rate of \$4,000. We will also prepare the formal drawings for \$140/sheet.

We will proceed to prepare a patent application on the new disclosure as soon as possible, noting from your letter that the final version of the application is due August 23, 1999.

Very truly yours,

John A. Artz
